TO: Minerals File

FROM: Lynn Kunzler, Reclamation Specialist 

RE: Site Inspection, Utah Building Stone, Lynn Springs Mine, S/003/025, Box Elder County, Utah

Date of Inspection: August 31, 1995
Time of Inspection: 3:30 p.m.
Conditions: Sunny, warm
Participants: Tom Munson, and Lynn Kunzler, DOGM

Purpose of Inspection: To determine if reclamation has been done at this site by the August 31, 1995 deadline.

Mr. Bown has until midnight tonight to do some regrading in preparation to reclaim this so it would be less than five acres in size. The approximate 1/2 acre of BLM ground that was supposed to have been regraded has not been touched since my last inspection. The approximate 1/2 acre of stone yard, where the Bowns have been working and palleting their stone was supposed to have been completely reclaimed, but there are still several tons of stone piled on it.

The SW corner that was also supposed to have reclaimed has not been touched. It still has digs and rock piles all over.

This means that Mr. Bown has not done as was promised, thus, this will need to be permitted as a LMO.
